Bakers' Bread.

The bakers' bread of today is not the bakers' bread of twenty years ago. Science and study has developed this food product more than any other manufactured article of consumption. The F. H. Traxel Company of this city is now the leading bread bakers of this section, simply because they have given study and close attention for years to making Bread that will please the public. Even now there is an impression that prevails among the few that bakers' bread is unwholesome and unfit for family use. We will admit that there are many bakers who make their bread the same as their forefathers did years ago, and hence this impression is justifiable to those who never had an opportunity to get Bread made by modern processes and by bakers who thoroughly understand how to make Bread that will be praised for its merits. The F. H. Traxel Co. has done its share to supply this section, enabling people to get Bread that will meet with every requirement. We make the assertion that this Bread will meet with every requirement because we have evidence of it, and the evidence is the increasing demand wherever sold.

The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and permanent cures have made it a great favorite with the people everywhere. For sale by J. Jas. Wood & Son, Druggists.
